CC31xx P2P Application

Overview

This is a sample application demonstrating how CC3100 can be connected to a P2P device. This application starts a TCP server on port 5001 and waits for P2P device to connect and send data on it.

Different P2P roles supported by CC3100 are:

- **SL_P2P_ROLE_GROUP_OWNER**: CC3100 will be configured in 'Group-Owner' mode
- **SL_P2P_ROLE_CLIENT**: CC3100 will be configured in 'Client' mode
- **SL_P2P_ROLE_NEGOTIATE**: CC3100 will negotiate with remote device for 'Client/Group-Owner' role.

CC3100 can be configure in below modes to initiate negotiation:

- **SL_P2P_NEG_INITIATOR_ACTIVE**: CC3100 will perform discovery - Once the remote device is found, it sends the negotiation request immediately
- **SL_P2P_NEG_INITIATOR_PASSIVE**: CC3100 will perform discovery - Once the remote device is found, CC3100 waits for it to start negotiation
- **SL_P2P_NEG_INITIATOR_RAND_BACKOFF**: CC3100 will perform discovery - Once the remote device is found, it triggers a random timer (1-7 seconds) and waits for the remote device to negotiate. On timer expiry, CC3100 starts negotiation itself

Supported security types used during P2P negotiation are:

- **SL_SEC_TYPE_P2P_PBC**
- **SL_SEC_TYPE_P2P_PIN_DISPLAY**
- **SL_SEC_TYPE_P2P_PIN_KEYPAD**

CC3100 can be configured in **any_p2p** mode as well - When configured, CC3100 will perform discovery and connect to the first found device using security type **SL_SEC_TYPE_P2P_PBC**

💡 **Note:** This wiki page is only applicable for **CC3100-SDK v0.5.2** and upward releases. For documentation on older SDKs' examples, refer corresponding file in **\<cc3100-sdk-installation-location>\cc3100-sdk\docs\examples**

Application details

This application configures the device with following settings:

- P2P role negotiate (SL_P2P_ROLE_NEGOTIATE)
- P2P negotiation initiation active (SL_P2P_NEG_INITIATOR_ACTIVE)
- P2P device listens on channel 11 and P2P device's operation channel is set to 6
- P2P connect security type 'PBC'

Usage

- Connect the board to PC and configure the terminal-program for seeing the logs - [| CC31xx_&_CC32xx_Terminal_Setting_Wiki [1]] has detailed instructions for configuring the terminal-program
- Build and run the application
- Start remote P2P device

```
CC3100 will be visible as P2P_DEVICE_NAME (which is set in the sample application) to the remote P2P device
```

- Connect to CC3100. On successful connection, CC3100's IP address will be displayed on the terminal-program's console

- Open an 'Ipef' client on the remote P2P device and connect on 'PORT_NUM'

```
Iperf.exe -c <DEST_IP_ADDR> -p <PORT_NUM> -i 1
```

- See the self explanatory logs on the terminal-program's console. On success, below message will be displayed on the terminal

```
P2P Application - Version 1.0.0
*********************************************************************
Device is configured in default state
Configuring device in P2P mode
Device is configured in P2P mode - Device name: cc3100-p2p-device
Connection established w/ remote P2P device
Device IP: 192.168.49.168
Started TCP server
TCP client connected
```

💡 **Note:** : User needs to reconfigure the device in 'Station-Mode' for executing other sample applications. Refer function configureSimpleLinkToDefaultState in this example's main.c for configuring the device in 'Station-Mode'.

Limitations/Known Issues

None

License

7. Termination

a. This License and the rights granted hereunder will terminate automatically upon any breach by You of the terms of this License. Individuals or entities who have received Adaptations or Collections from You under this License, however, will not have their licenses terminated provided such individuals or entities remain in full compliance with those licenses. Sections 1, 2, 5, 6, 7, and 8 will survive any termination of this License.

b. Subject to the above terms and conditions, the license granted here is perpetual (for the duration of the applicable copyright in the Work). Notwithstanding the above, Licensor reserves the right to release the Work under different license terms or to stop distributing the Work at any time; provided, however that any such election will not serve to withdraw this License (or any other license that has been, or is required to be, granted under the terms of this License), and this License will continue in full force and effect unless terminated as stated above.

8. Miscellaneous

a. Each time You Distribute or Publicly Perform the Work or a Collection, the Licensor offers to the recipient a license to the Work on the same terms and conditions as the license granted to You under this License.

b. Each time You Distribute or Publicly Perform an Adaptation, Licensor offers to the recipient a license to the original Work on the same terms and conditions as the license granted to You under this License.

c. If any provision of this License is invalid or unenforceable under applicable law, it shall not affect the validity or enforceability of the remainder of the terms of this License, and without further action by the parties to this agreement, such provision shall be reformed to the minimum extent necessary to make such provision valid and enforceable.

d. No term or provision of this License shall be deemed waived and no breach consented to unless such waiver or consent shall be in writing and signed by the party to be charged with such waiver or consent.

e. This License constitutes the entire agreement between the parties with respect to the Work licensed here. There are no understandings, agreements or representations with respect to the Work not specified here. Licensor shall not be bound by any additional provisions that may appear in any communication from You. This License may not be modified without the mutual written agreement of the Licensor and You.

f. The rights granted under, and the subject matter referenced, in this License were drafted utilizing the terminology of the Berne Convention for the Protection of Literary and Artistic Works (as amended on September 28, 1979), the Rome Convention of 1961, the WIPO Copyright Treaty of 1996, the WIPO Performances and Phonograms Treaty of 1996 and the Universal Copyright Convention (as revised on July 24, 1971). These rights and subject matter take effect in the relevant jurisdiction in which the License terms are sought to be enforced according to the corresponding provisions of the implementation of those treaty provisions in the applicable national law. If the standard suite of rights granted under applicable copyright law includes additional rights not granted under this License, such additional rights are deemed to be included in the License; this License is not intended to restrict the license of any rights under applicable law.
